Review Group Evaluation Report

Your review group is charged with evaluating a group of proposals. Your evaluation should reflect a group effort at critiquing the proposal. For each proposal reviewed, you should submit a report containing the information listed below. Your report must be typed.

Investigator:

Proposal Title:

Review Group Members:

Recommendation: (Approve or disapprove granting the requested credits for the research or for funding. Please report decision of the group, *i.e.* 3 in favor, 1 opposed with the following reservations...)

Resume: (A brief summary of the review group's review and recommendation.)

Description: (Summary of the proposed science, questions to be answered, hypothesis to be tested, etc.)

Critique: (Does the researcher understand the necessary background? Is the science sound? Is the proposal well written and mistake free? Etc.)

Investigator: (Is the investigator qualified to perform the research?)

Resources and Environment: (Are the resources and environment adequate for the proposed research?)

Budget: (Is the proposed number of credit hours and the budget reasonable and justified? Should the credit hours and budget be approved as requested?)

Advisor: (Has the researcher obtained the support of an advisor?)

Human Subjects: (Are human subjects involved and have approvals been applied for?)
