# Center for **IMAGING** SCIENCE Seminar Series

## Four Hundred Years of Imaging Technology: 1609 – 2009

**William Rhodes**

*Associate Director*

*Imaging Technology Center, Atlantic University*

The history of the development of imaging technology combines important elements from scientific research, materials development, technology generally, and economic forces. All are examined in this talk, which describes important developments from the time of Galileo through the most recent innovations in microscopy, television, and biomedical imaging.

**4pm, Wed, April 22, 2009**

**Auditorium of the Center for Imaging Science**
