

Dr. Steven Bickerton

Dept. of Astrophysical Sciences
Princeton University

Dr. Steven Bickerton is an astronomer and software developer in the Department of Astrophysical Sciences at Princeton University. He completed an engineering degree in Applied Geophysics at Queen's University (Kingston, Canada), and later pursued astronomy in graduate school. He received his Ph.D. in Astrophysics from McMaster University (Hamilton, Canada) in 2007. During his Ph.D. he held a Morton Fellowship at the Herzberg Institute of Astrophysics in Victoria, Canada, where he worked to develop a high-speed digital camera for use in astronomy. Dr. Bickerton is currently a software scientist working jointly for the Large Synoptic Survey Telescope (LSST) project and the Hyper-Suprime Cam (HSC) collaboration. His research focuses on the development of algorithms for processing astrophysical images and spectra.

4PM, WEDNESDAY, FEBRUARY 15, 2012

Carlson Auditorium, Center for Imaging Science (Bldg. 76)
