Dr. Gabrielle Gaustad

Assistant Professor
Golisano Institute for Sustainability
Rochester Institute of Technology

Dr. Gabrielle Gaustad received her PhD from the Massachusetts Institute of Technology in Material Science and Engineering and is currently an Assistant Professor in the Golisano Institute for Sustainability. Her research focuses on managing the composition of end-of-life material streams through blending algorithms and upgrading technologies. Her work on aluminum alloy design for recycling was recently featured in the Journal of Industrial Ecology. Gaustad serves as a peer reviewer for Environmental Science & Technology and Resources, Conservation, and Recycling; she recently co-organized a session on Sustainable Technologies at the TMS annual meeting. She is also very active in promoting participation of women in the STEM disciplines including currently serving as vice-chair of The Minerals, Metals, and Materials Society Women in Science committee.

4PM, WEDNESDAY, APRIL 20, 2011
Student Innovation Center (87-1600)
