

Ball Aerospace - Technical Intern II-Software Engineer

Ken Ewald is a graduate of the Imaging Science Program. He is looking for individuals for the spring or summer quarter:

I am running a project at Ball Aerospace, and have a coop available for this summer to work on longwave infrared hyperspectral algorithm development. I would like to extend an invitation to interested CIS students to apply. I am looking for at least a Junior going into Senior year with knowledge in radiometric principles. The link to the job posting is below:

https://careers.ball.com/psp/HCMPCG91/EMPLOYEE/HRMS/c/HRS_HRAM.HRS_CE.GBL?Page=HRS_CE_JOB_DTL&Action=A&JobOpeningId=651903&SiteId=1&PostingSeq=1

Or, more simply, <http://tinyurl.com/ballinternship> (*link will forward you)

If there is a student available for spring quarter, I can work with our HR department to see if that is a possibility as well.

We offer excellent pay, as well as a housing stipend and relocation expenses to Dayton, OH.

Please have them apply through the link above, as that is the only way to be considered for the position.

Regards,

Ken Ewald
Ball Aerospace
Dayton, OH
