Dr. Vivek Kwatra

**Research Scientist
Google**

Vivek Kwatra is a Staff Research Scientist at Google. He received a B.Tech. in Computer Science and Engineering from IIT Delhi and completed his Ph.D. in Computer Science (2005) from Georgia Tech, after which he spent two years at UNC Chapel Hill as a Postdoctoral Researcher. His research interests lie in computer vision and image-based computer graphics. He has published many papers on computational image and video processing for synthesis as well as analysis problems, and also holds multiple patents on these topics. For his doctoral thesis, he received an Outstanding Dissertation award from Georgia Tech. Three of his publications have been recognized with Best Paper awards. His work on video stabilization is part of YouTube's suite of enhancement tools and was featured in several news publications and online blogs including New York Times, Time Magazine and Engadget.

4PM, WEDNESDAY, APRIL 3, 2013

Carlson Auditorium, Center for Imaging Science (Bldg. 76)
