Sildomar Monteiro is an assistant professor in the Department of Electrical and Microelectronic Engineering at the Rochester Institute of Technology. Before joining RIT in 2013, he was a research staff member with the Australian Center for Field Robotics at the University of Sydney, Australia. He received the M.Sc. degree in computer science from the Technological Institute of Aeronautics, Brazil, in 2002 and the Ph.D. degree in engineering from the Tokyo Institute of Technology, Japan, in 2007. His research interests include machine learning, statistical signal and image processing, and applications to robotics and remote sensing. Dr. Monteiro was the recipient of a Japan Society for the Promotion of Science Postdoctoral Fellowship in 2007. He served as a Guest Editor of the Journal of Field Robotics special issue on Alternative Sensing Techniques for Robot Perception, 2014.

4PM, WEDNESDAY, MARCH 19, 2014
Carlson Auditorium, Center for Imaging Science (Bldg. 76)
