

## Research Intern - Kodak Alaris

*Please see this job announcement for a 3-6 month internship here in Rochester at Kodak Alaris. We had a graduate student go up there last summer as well and they would like another student this summer.*

*Let me know if you are interested and I will put you in touch with the contact person.*

*David W. Messinger, Ph.D.*

[messinger@cis.rit.edu](mailto:messinger@cis.rit.edu)

- **Job Purpose:** Conduct research and advanced development in the areas of video processing and image analysis with applications to video summarization and multimedia retrieval.
- **Required:** Strong fundamental and practical knowledge of video signal processing/analysis and image understanding techniques. Strong analytical and problem solving skills. Good programming skills with experience in C/C++ and Matlab. Knowledge of video and image segmentation algorithms a plus.
- **Qualifications:** Ph.D. or Master students in CS, ECE, or equivalent programs.
