

EDUCATOR RECEPTION: *Better than Google and Wikipedia combined!*

Monday 7 January 2008 5pm - 8pm
The Hilton Austin Hotel

Registration: Free

Please join us for an evening reception, hosted by the Association for Astronomy Education (AAE) and the American Astronomical Society (AAS), to learn about the latest astronomy results and how you can use them in your classroom! During the evening you will have the chance to see some of the science background behind the latest discoveries, mingle with research scientists and other education professionals over snacks and drinks, and get lots of resources to take back to your classrooms.

Space is limited, so be sure to register early! Online registration can be found at:

www.aas.org/meetings/AstroZone_form.php

You may also be interested in checking out AstroZone, an event for kids, families and teachers on Sunday January 6th in the Hilton Austin Hotel. Please visit www.imascientist.org/astrozone for more details on this event, and encourage your students and their families to take part and learn more about astronomy too!

Visit www.astroed.org for any Educator Reception updates and we hope that you will be able to join us for these events and enjoy astronomy research coming to your town.

PRESIDENT:

Jacob Noel-Storr, Ph.D.
