The CIS Summer Internship program, now in its 11th year, proudly hosted the 160th birthday of its signing student. The interns, who will all be entering their senior year this fall, conducted authentic research in the Digital Imaging Science, Visualization and Computing, CIS, Ultrasonics, Astronomy, Space Weather, and Eye Imaging laboratories. The seven week long paid internship also included field trips to local companies, research centers, and landmarks, including JML Optics, The Biomedical Engineering Department, the University of Rochester, and the George Eastman House. Interns were required to maintain blogs recording their memorable experiences. Meet our 2010 interns and read their comments on our website.

Also check out this RIT University News article, which describes the Summer Intern program and highlights two of our interns:

**New Recruitment Materials**

Know anyone who may be interested in majoring in Imaging Science at RIT (or maybe they think they ought to, and just don't know it yet!)? Looking to promote Imaging Science in local schools, businesses, or at your workplace? CIS is proud to provide a variety of promotional materials to suit your needs. Check them out [HERE](http://www.cis.rit.edu/2010interns/), and please help spread the word about the Imaging Sciences program at RIT.

To request print copies, please contact choate@cis.rit.edu.

**Just for fun: WNY Bike Ride Adventure**

New for 2010, RIT hosted a variety of 4 day pre-orientation activities for incoming freshmen, called the **Welcome Back Fall Picnic**. One of the fun activities was organized and led by CIS’s very own Joe Pow! The ride offered a guided tour of bike trails from Niagara Falls back and along the historic Erie Canal on a 180-mile round trip. Several faculty and current students also went along the ride, including CIS director Dr. Steffl Baum, professor Dr. Maria Nascimento, and Professor Emeri Prof. Wednesday. Check out the group’s [Facebook page](http://www.facebook.com) for more info, a list of riders, and memorable photos!

[Click here](http://www.facebook.com) for a news story produced by local news station YNN about the program, and click [HERE](http://www.facebook.com) for an excellent video keepsake created by Imaging Science BS graduate and current PhD student Dave Kelber!

**CIS Alumni Receptions & Brick City**

Brick City Homecoming is October 15-17! CIS once again will be sponsoring two tables of seating at the Homecoming Reception. Alumni will be served an Alumni Ball exclusively for CIS alumni and alumni-in-training.

To be entered into a raffle drawing for 2 FREE tickets to our Alumni Ball ($120 value!), e-mail the Alumni Office at alumni@cis.rit.edu by Wednesday, October 13. To be entered into a raffle drawing for 2 FREE tickets to our Alumni Ball ($120 value!), e-mail the Alumni Office by Wednesday, October 13.

Upcoming Alumni Receptions: Plans are currently in the works for CIS Alumni receptions in Rochester, NY and Philadelphia, PA! Stay tuned!

**Imaging Science Socials**

Imaging Science Fall Ice Breaker Bash! September 24, 4-6 PM: Bring some friends and energy! The Social will be held in Cafe Chester (76-2261), the new CIS Espresso Machine rolls into Chester! Come out and meet one of the CIS's own for a fun and interactive event meant to help us all get to know each other better, through images! Participation is encouraged for all CIS folks—especially alumni! Submit an image and enjoy live music, food, and games on us. [Invitation](http://www.cis.rit.edu/2010interns/)

**NEW Expresso Cart!** A new tradition has begun in CIS with CIS Espresso Cart at 1200 on Wednesdays in Cafe Chester (76-2261). The new CIS Espresso Machine rolls into action. Come meet, greet, chat, interact, and re-energize from the activities of the day with fresh coffee provided and encouraged to stop by, and bring guests and visitors! Click [here](http://www.cis.rit.edu/2010interns/) to view a PDF poster describing the new cart. Hope to see you there?

**Alumni Update Directory Now Online**

The updated CIS Alumni Directory is now online! Thank you for your help in this making this happen! Check it out [HERE](http://www.cis.rit.edu/2010interns/).

Please check your entry for accuracy. If your name is not there, then we haven’t received your information! Please check to see if you have used our online form, or if your contact info has changed, please fill it out now [HERE](http://www.cis.rit.edu/2010interns/)

Please consider indicating your contact information with us to date. You can make sure that your information is received and shared with your contact. Your information is only shared with your permission. This directory is independent of RIT Alumni Association’s directory, which is maintained by the CIS Office and shared with CIS’s current students and alumni. CIS does not share alumni contact information with any external organizations, departments without your permission, and the Center for Imaging Science does not provide for any advantage of taking care of importance for your satisfaction purposes. Therefore, you define these privacy settings as a part of the form. You can feel safe that your information will not be missappropriated.

**Rogers’ book is published!**

Easton in Dresden: Roger recently spent some time in Dresden, Germany, to attend a team of researchers make a hand-made manuscript from the Middle Ages readable again. Check out this [RIT University News article](http://www.cis.rit.edu/2010interns/) featuring Roger, with an article on Roger, with an article on Roger, with an article on Roger, with an article on Roger, with an article on Roger,

**CIS oversees a weekly Seminar Series**

CIS hosts a weekly Seminar Series! These are seminars to learn about cutting edge research being done at RIT and with CIS staff, corporate partners, and scientists in Imaging Science and other related fields. Seminars occur every Wednesday from 3-4PM, and can be viewed in person or [HERE](http://www.cis.rit.edu/2010interns/). Contact me for more info.

**Upcoming Alumni Update Contact Info form**

If you have any questions or comments, please contact choate@cis.rit.edu.

**Spotlight on Roger Easton Jr.**

**SPEA Awards-Rob Parada**

**ALUMNI AWARDS—ROB PARADA**

Imaging Science alumna Dr. Ruth Wipfli received RIT’s highest award, the Phi Kappa Phi Fraternity’s national “Edward H. Night Award”. Among the 13 recipients in the nation were researchers in Imaging Science who have received a Fulbright grant in their international research.

Dr. Parada currently works at Eastman Kodak, and leads the university’s efforts in philanthropic efforts with the Sony Glof Club.

**Congratulations, RIT!**
