CIS Summer Interns 2010

The CIS Summer Internship program, now in its 11th year, proudly hosted 16 of the area's best and brightest high school students! The interns, who will all be entering their senior year this fall, conducted authentic research in the Digital Imaging and Remote Sensing, Visual Perception, MRI, Ultrasound, Astronomy, Space Weather, and Eye Imaging laboratories. The seven week long paid internship program also included field trips to local companies, research centers, and landmarks, including JML Optics, The Biomedical Engineering Department at the University of Rochester, and the George Eastman House. Interns were required to maintain blogs recording their memorable experiences. Meet our 2010 interns and read their blogs at [http://www.cis.rit.edu/2010interns/!](http://www.cis.rit.edu/2010interns/)

Also check out [this RIT University News article](#), which describes the Summer Intern program and highlights two of our interns!

New Recruitment Materials

Know anyone who may be interested in majoring in Imaging Science at RIT? (Or maybe you think they ought to, and they just don't know it yet!) Looking to promote Imaging Science in local schools, businesses, or at your workplace? CIS is proud to provide a number of promotional materials to suit your needs. Check them out [HERE](#), and please help spread the word about the Imaging Science programs at RIT!

To request print copies, please contact choate@cis.rit.edu.

Just for fun: WNY Bike Ride Adventure

New for 2010, RIT hosted a variety of 4-day pre-orientation activities for incoming freshmen, called the [DiscoverRIT](#) program. One program, the Western New York Bike Adventure, was organized and led by CIS's very own Joe Pow! The ride offered a guided bike tour from RIT to Niagara Falls and back along the historic Erie Canal on a 180-mile round trip. Several faculty and current students also went along for the ride, including CIS director Dr. Stefi Baum, professor Dr. Maria Helguera, and Professor Emeritus Larry Belle. Check out the group's [Facebook page](#) for more info, a list of riders, memorable photos, and GPS data from the trip!

[Click here](#) for a news story produced by local news station YNN about the program, and click [HERE](#) for an excellent video keepsake created by Imaging Science BS graduate and current PhD student Dave Kelbe!

CIS Alumni Receptions & Brick City

Brick City Homecoming is October 15-17! CIS will once again be sponsoring two tables of seating at the [RIT Presidents' Alumni Ball](#) exclusively for CIS alumni and alumni-in-training. To be entered into a raffle drawing for 2 FREE tickets to our tables (\$120 value!) e-mail choate@cis.rit.edu!

Upcoming Alumni Receptions: Plans are currently in the works for CIS Alumni Receptions in Rochester, NY and Philadelphia, PA! *Stay tuned!*

Imaging Science Socials

Imaging Science Fall Ice Breaker Bash! September 24, 4-6 PM: Replacing the Welcome Back Fall Picnic this year is a fun and interactive event meant to help us all get to know each other better, through images! Participation is encouraged for ALL CIS folks—especially alumni! Submit an image and come tell us your story (in less than 2 minutes), while enjoying live music, food, and games on us. [Invite](#) [Instructions](#)

NEW Espresso Cart! A new tradition has begun in CIS! Afternoons at 3:00 on Tuesdays, Wednesdays, and Thursdays in Cafe Chester (76-2261), the new CIS Espresso Machine rolls into action. Come meet, greet, chat, interact, and re-energize around the well in the afternoon. Alumni are invited and encouraged to stop by, and bring guests and visitors! Click [here](#) to view a PDF poster describing the new cart. Hope to see you!

Updated Alumni Directory Now Online

The updated CIS Alumni Directory is now online! Thank you for your help in making this happen! Check it out [HERE](#).

Please check your entry for accuracy. If your name isn't there, then we haven't received your information! If you haven't yet used our online form, or if your contact info has changed, please fill out our [Alumni Update Contact Info form](#).

Please consider keeping your information up to date with us. This vital resource helps keep you connected with each other, with CIS, with potential colleagues, and more.

The information you provide will be used for the Center for Imaging Science's private contact database ONLY. Your information will never be shared without your consent. This directory is independent of RIT Alumni Relations and Development; your information will not be shared with such departments without your permission, and the Center for Imaging Science will not take advantage of your information for solicitation purposes. You define these privacy settings as a part of the form. You can feel safe that your information will not be misappropriated.

Cicely DiPaulo, left, from Pittsford Mendon High School, adjusts the Positive Science Eyetracker worn by Octavia Rhim, from Benjamin Franklin High School. They spent the summer as interns in the Chester F. Carlson Center for Imaging Science, where they worked in the Multidisciplinary Vision Research Laboratory. [Full Article](#)

DID YOU KNOW?

CIS hosts a weekly Seminar Series! These seminars are an opportunity to learn about cutting edge research being done by faculty, staff, corporate partners, and scientists in Imaging Science and other related fields. Seminars occur every Wednesday from 4-5PM, and can be viewed in-person or **LIVE ONLINE!** Check out our [seminars website](#) for more info.

We LOVE to have CIS alumni present as seminar speakers—we'll even cover your travel and lodging costs! Contact choate@cis.rit.edu if interested.

WNY Bike Ride Adventure participants take in the sights at Niagara Falls, before turning around and coming all the way back home again. [More photos](#)

CONGRATS to all the riders!

SPOTLIGHT ON ROGER EASTON JR.

Roger's book is published!!!

<http://www.wiley.com/WileyCDA/WileyTitle/productCd-0470689838.html>

Easton in Dresden

Roger recently spent some time in Dresden, Germany helping a team of researchers make a handwritten manuscript from the Middle Ages readable again. Check out a German news article featuring Roger, with an English translation, [HERE!](#) Also view a related news article [HERE](#).

ALUMNI AWARDS—ROB PARADA

Imaging Science alumnus Dr. Rob Parada ('92) recently won the Phi Kappa Psi Fraternity's national "Edward H. Night Award of Merit", one of the highest awards that the fraternity gives at its biennial meetings.

Dr. Parada currently works at Eastman Kodak, and leads the national fraternity's philanthropic efforts with the Boys & Girls Club.

CONGRATULATIONS, Rob!!!
