Dr. Roger Baum, outgoing director, will be impressed by the CIS Undergraduate Research Symposium, Wednesday, October 1 at 1:00 PM in Carlson 2155.

The annual event features student presentations of their research projects in which they have been involved during the past year. The event is free and open to the public.

CIS volunteers will be on hand to answer any questions about the CIS programs and to collect feedback from the community.

Dr. Roger Baum joined RIT in 2004 as the director of the Center for Imaging Science. Prior to joining RIT, Dr. Baum served as the department chair of the School of Imaging Science at New York Institute of Technology. He earned his Ph.D. in physics from Rensselaer Polytechnic Institute.

Dr. Baum is a renowned expert in optical technology and the founder of a medical imaging company. He has published numerous papers and has been awarded several patents. He is a member of the Optical Society of America and the SPIE.

The CIS Undergraduate Research Symposium is sponsored by the CIS Undergraduate Research Program. For more information, contact Dr. Roger Baum at contactus@cis.rit.edu.
